very good weath & continue

Fri 17 Light winds East & fair
pleasant weather Saw Harry & Boats
Crew come to day to the ship from
whale P. Andrew Lombard still
sick with Scurvy

Sat 18 Good weather all day
began to doctor Sailor Lawrence
Gill bowels for Scurvy

Sun 19 Moderate Light from East
& pleasant weather the Second & third
Mates come onboard from the Fleet &
Commanded the ship make away
the winds both in the Jer then
up the Starboard Anchor & found the
shank broken off at the Crown run a line
to the Jer & hauled ship ahead & shifted
the Port Anchor to Starboard & Chafed it
still Keeping the line fast this leaves the ship with
one small Anchor

July
Wednesday

Moderate breezy from South to S West & squally Latter Harry & Boats Crew Came to the ship to help do the work the 2nd & third Mate stowing down Casks & getting ship ready for Sea Andrew Lombard & Laurence Gilhooly still sick with Scurvy

Thurs 21

First part Rainy & squally weather ship still in the Ice which is breaking up some & is making a large hole where the bay ice is breaking embanked for the ship Safely with only one anchor until from W West to N West at Seven AM got out another line to the Ice to hold her up stowed a lot of meat & salt water in bottom Hold got off all the Salmon dogs &c from the Ice Rainy for a Short interpolatty for whole pt

Fri 22

Comes in dirty squally weather from W West sometimes blowing a Gale Ice Coming down on the ship at times & dragging the ship towards the passage out between the Isles & in great danger of going on the Rocks when both the anchor without any Flukes & Casted a Ridge anchor to it with one heaviest Fluke Chain one Head shackle & Chain for back & stopped it to help hold the ship the the Capt on deck all night weather wind Coming in heavy squalls from W West to North most of the time W West Andrew Lombard Taken from Capt Le Roche Isles died at about 3 PM to day from Scurvy

July

Thurs 13 Degrees with a gale from W.W.N. Rainy & very bad weather Ice now from from 2 ft 6 inch down to 6 inch in places at 12-30 All the Ice began to come down on the ship heavy & fast & by Sawing & Cutting left her free for a short time at one A.M. Ice began to come quick & the Ship draged 3/4 of a mile to leward & brought up in the passage between the Islands & within 3/4 of a cable her length of clear water & layed there till 3 11 All meantime unshackled both Cables ready to slip at a moments warning Ship started to drag quick at 3-45 slipped the Cables immediately & backed around & at 4-15 A.M. all clear had not the Cables been slipped immediately at the time they were the ship would have gone ashore on to a reff & gone to pieces lost starboard Anchor & 60 fathoms Chain Port Anchor & 35 fathoms Chain also Kedge Anchor Fluke Chain Head Shaft & Chain Jon Jack & two shackles At 8 45 hauled Anchor Starboard Ship in clear water under Sail heading for whale P.t

Fri 14 Light Variable & Calms first Calm first Part & rain during night stood in to the Ice South of whale P.t & made fast to a large piece of Ice Str. to K Inner & Perseverance in sight

Sat 15 Light winds from the Southward & rain squally Ship still fast to a large piece of Ice Str. to K Inner & Perseverance still in sight Capt Comer Mate & third Mate of Str Era came alongside at 9 A.M. from Capt Tendell came to their vessel Lowered sailboat & left Ship Duly with Canvas
